## Limited Access Mini Loaders Now Available

Kerr's has recently added a new limited access mini loader to their large range of earth moving equipment. The Kanga Kid has a powerful 16 hp Honda engine and high flow hydraulic pump which provides plenty of power and speed to the hydraulic system. It is capable of lifting 100 kg to a height of 1500mm. However, its best feature is its small 820mm width, giving the Kanga more versatility when it comes to fitting down narrow paths or through small gates. The rubber tracks provide the Kanga with plenty of traction when the going gets tough & the self levelling bucket is standard.

**Kerr's New limited access Kanga Loader**

The hire price is \$160 per day which includes bucket & trailer. For further information or to book the Kanga Kid contact us on 5278 6011 or visit [www.kerrshire.com.au](http://www.kerrshire.com.au).

## A Porta Pumping Solution

Kerr's Northside Hire now stocks the new & innovative Flextool Porta-Pump. The new pump has been designed for pumping waste water with ease from footings, trenches, pits and foundations.

The PortaPump™ provides the solution to pumping waste water with an easy to use portable unit. There is no need for electricity supply or separate pump units. The Honda four-stroke motor provides hassle free operation and in comparison to a two-stroke motor uses less fuel, has reduced engine emissions and there's no need for mixed fuel. The unit is light and balanced and is fitted with an adjustable handle and carry strap for user comfort and complete control. The pump also comes with a 5m x 32mm plastic reinforced hose extension to get the water further away.

## Don't Let this Happen to You

Recently an accident occurred onsite that involved a generator being damaged beyond repair. The customer had the generator operating on site when a front end loader reversed over it and caused the unrepairable damage as seen in the picture. The customer was required to pay for the damage to the generator as he had no insurance that covered damage to hired equipment, the bill totalled \$15,000. All hire company's including Kerr's Northside Hire have no insurance when it comes to damage like this, or if the item was stolen from site. "At Kerr's it is the responsibility of the customer to ensure the security of and any damage to all equipment whilst it is on hire". "We recommend customer's ask their insurance company about cover for hired equipment, for only a few hundred dollars a year it might save them thousands if this damage was to happen to them." Jarrod Kerr.
