## Inside this issue:

Kerr's increases its already large range	1
Husqvarna & Kerr's	2
Run Out Sales Extended	2

## New Equipment Purchased:

- **Nifty Lift HR21 60ft Knuckle Boom.** More height with less weight.
- **JLG 450AJ 45ft Knuckle Boom.** Great reach with zero swing.
- **Takeuchi 1.6 tonne Excavator.** Powerful compact digging.
- **Takeuchi 5.6 tonne Excavator.** Powerful digging with zero swing.
- **Wagner PS 24 Airless Spray.** Compact spraying with low litres per minute.

## Kerr's increases its already large range.

Kerr's has increased its large plant range to include 2 new boom lifts a 5 tonne zero swing excavator and a 1.6 tonne mini excavator. This is added to the more recent purchase of a Hamm ride on roller. "These purchases have been driven by demand in the area due to the high level of building projects happening in Geelong," Gary Kerr of Kerr's .

Kerr's New Nifty Lift 60 ft Boom adds a new speciality market in Geelong, being the only 60ft boom lift under 6.2 tonnes GVM, this means that the boom can be transported on a tilt tray keeping freight costs down. This is only one of many features of this new boom that has a platform height of 63 ft (19.20 m). Its horizontal out reach is the biggest in its class at 43 ft (13.20m) and combined with the jib the boom is capable of working below ground level.

**Kerr's New Nifty Lift HR21 60ft Boom.**

Kerr's also has updated its 45ft boom range adding a new JLG 450AJ series 2 45 ft Knuckle boom to its growing access fleet. This new boom comes with the sky power option with an onboard 5 KVA generator delivering power directly to the basket.

Two brand new Takeuchi excavators were also purchased adding to Kerr's large earthmoving range. The Takeuchi 1.6 tonne excavator replaced one of Kerr's aging Libra 1.5 excavators. This new excavator has the highest bucket break out force in its class at 1900 kg, compared to

**Takeuchi TB16 1.6 tonne Excavator with superior brake out force.**

the Libras 1600kg. This is because of the longer blade arm which provides the counter weight with a greater leverage and also creates greater stability.

Kerr's new Takeuchi 5.6 tonne zero swing excavator is one capable machine, its 5.6 tonne operating weight provides a one of the highest bucket break out force in its class which is over 5000 kg. This is combined with a 38hp Yanmar diesel engine which provides maximum power when it's needed. Other features include a fully enclosed heated and air conditioned cabin and an AM - FM cassette Radio.

For more information go to [www.kerrshire.com.au](http://www.kerrshire.com.au) or call Kerr's on 52786011.

## Husqvarna & Kerr's

As of January 2007 Husqvarna Construction Products began re-branding its range of construction equipment which includes both Partner & Dimas brand names. The re-branding of this equipment is to create a global brand that will make Husqvarna one of the biggest names in the construction industry. This branding combined with Kerr's steady fast customer service & knowledge of the industry will make this change a win, win situation for the Geelong region.

In 2007 Husqvarna will release updated models in its road saw and core drills range, as well as the release of the new K960 dual charge power cutter, this is also combined with the later release of a brand new cutter trolley. These changes also sees Kerr's North Geelong showroom stocking the largest range of Husqvarna construction products in Geelong & the Surf coast. Some items on the shelf include demolition saws, masonry & paving saws, flat saws, tile saws, core drill & core bits as well as a large

range of genuine Husqvarna accessories.

Kerr's is dedicated to the concrete industry in Geelong with the ability to sell and service larger concreting equipment as well as its already established smaller range, this new equipment includes road saws, early entry saws, laser screeds & ride on trowel machines.

For more information contact Jarrod on 52786011 or go to [www.kerrshire.com.au](http://www.kerrshire.com.au).
